COFFETEK

Why Select Coffetek?

Coffetek has more than 30 years experience in the design and manufacture of beverage dispense systems. Our products have been successfully exported throughout Europe and as far afield as the Far East and Australasia. In the UK we have built an enviable reputation for equipment simplicity and reliability achieved through exploiting our experience in product design and innovation.

Coffetek is a member of the Azkoyen Group of companies, with origins dating back to 1945. Azkoyen specialise in the design and manufacture of a complete range of merchandising systems.

With this combined expertise & resource we are able to offer one of the most comprehensive refreshment solutions in the world.

Coffetek Guarantees

Outstanding quality and reliability. Precise control of product delivery and temperature ensuring the ultimate consumer experience.

Nexus Vend Reliability

Fitted as standard to the Nexus beverage range Coffetek's I-Detect™ guarantees that the selected item is delivered to the customer or their money is returned.

Minimising Impact on the Environment

Coffetek is committed to minimising the impact of its activities on the environment. The Nexus beverage range has an advanced power management system which reduces power consumption during low-use periods.

NEXUS TABLE TOP

The Nexus machine uses a unique flat screen selection system that allows each user to design their own drink – anything from sophisticated Continental Coffee blends (using either Instant, Freshbrew or Fresh Bean Coffees) to Fresh Leaf Teas, Chocolates and Soups. Once a drink has been selected the machine will allocate a unique quick select code. This code can then be used to select the same high quality drink with the minimum of delay. Customised display messages provide the opportunity to communicate drink brands to the consumer.

- I-Detect – providing a guaranteed vend, I-Detect also allows the user to place their own cup, automatically detecting the cup and dispensing the drink
- High capacity cup system dispensing plastic or paper cups
- Internal stainless steel panelling – durable & easy to clean
- Jug facility – providing beverages for those all important meetings
